#### Wisconsin Department of Children and Families

Performance Report January – June 2013

> Prepared by: Division of Management Services Bureau of Performance Management

### **Wisconsin Department of Children and Families Values**

#### Wisconsin Department of Children and Families will:

- Make decisions and act based on the best interests of children and their families because Wisconsin's future is dependent upon their success today.
- Partner with the people of Wisconsin to keep children safe, promote economic stability and ensure the success of children and families, because it is our shared responsibility.
- Share information, seek input and explain our actions, because we value transparency and accountability.
- Treat everyone with dignity and respect, because we believe in everyone's inherent value.
- Manage our resources efficiently, because we value good stewardship.
- Support, develop and hold accountable our employees and contractors, because their performance is vital to our success.
- Keep learning about and applying what works, because we want to continually improve what we do.

#### Performance Report January – June 2013 Data Contents

Each KidStat Performance Report captures data for the Real Results and performance measures from January 2013 to June 2013. For most Real Results, we track and report on performance measures in the same way over time. In a few cases, though, we have made modifications to measures for reasons such as:

- A change in data source (from a hand count to an automated count, for example);
- An updated measure (we developed a more accurate way to measure progress); and
- An eliminated or added measure (due to a shift in focus or because an old measure was no longer useful).

As well, each Real Result is reported for different time periods based on the availability of data from the different sources used.

| Real Result  | Timeframe           |
|--|---------------------|
| Children are safe from abuse and neglect -<br>Statewide              | January – June 2013 |
| Children are safe from abuse and neglect - BMCW                      | January – June 2013 |
| Children achieve permanency - Statewide                              | January – June 2013 |
| Children achieve permanency - BMCW                                   | January – June 2013 |
| Families increase income - W-2 program                               | January – June 2013 |
| Parents receive quality customer service - W-2 program               | January – June 2013 |
| Families increase income - Child Support program                     | January – June 2013 |
| Children are safe in licensed and certified child care settings      | January – June 2013 |
| Children attend high quality child care and early education programs | January – June 2013 |
| Child care funds are well spent and fraud is minimized               | January – June 2013 |
| Customers receive quality service                                    | January – June 2013 |

| Real Result<br>(What we work to achieve) | Output<br>(How we measure it)   | Pg<br># |
|--|---|---------|
| Children are safe from abuse and neglect | Initial assessments are completed in a timely manner.                   | 8       |
|  | Initial contacts with the child victim are made in a timely manner.     | 9       |
|  | Monthly face-to-face contacts are made in a timely manner.              | 10      |
|  | Increase number of children who are NOT repeat victims of maltreatment. | 11-12   |
|  | Reduce the number of days to complete critical incidents.               | 13      |
| Children achieve permanency              | Children spend minimal time in out of home care.                        | 14-16   |
|  | Children gain permanency before they age out of care.                   | 17      |
|  | Children experience stability in their out of home placement.           | 18      |
|  | Once children exit out of home care, they do not re-enter.              | 19      |
| Families increase income                 | W-2 agencies serve the number of clients bid under the contract.        | 22      |
|  | Access to the W-2 program among Food Share recipients increases.        | 23      |
|  | Expenditures per W-2 case decreases.                                    | 24      |
|  | W-2 participants participate in required activities.                    | 25      |

| Real Result (What we work to achieve) | Output<br>(How we measure it)   | Pg<br># |
|---------------------------------------|---|---------|
| Families increase Income              | W-2 participants get jobs.  | 26      |
|                                       | Long term W-2 participants get jobs.  | 27      |
|                                       | W-2 participants get high wage jobs.  | 28      |
|                                       | W-2 participants retain their jobs.   | 29      |
|                                       | Parents are supported in their application for Supplemental Security Income/Social Security Disability Insurance. | 30      |
|                                       | Court orders are established.   | 31      |
|                                       | Children have legal fathers.  | 32      |
|                                       | Child support is a stable, reliable source of income for families.  | 33      |
|                                       | Unpaid child support debt balances are collected.   | 34      |
|                                       | DCF effectively and efficiently uses federal child support resources.   | 35      |

| Real Result (What we work to achieve)                                | Output<br>(How we measure it)   | Pg<br># |
|--|---|---------|
| Children are safe in licensed and certified child care settings      | Visits to certified and licensed providers are completed according to regulation.   | 38-39   |
| Children attend high quality child care and early education programs | Wisconsin Shares children increase access to high quality early education programs. | 40      |
| Child care funds are well spent and fraud is minimized               | Client overpayments are established.  | 41      |
|  | Provider and client investigations are completed in a timely manner.                | 42-43   |
| Customers Receive Quality<br>Service                                 | Call center calls are answered in a timely manner.                                  | 44-45   |

Performance Measure: INITIAL ASSESSMENT TIMELINESS

Objective: Increase the timely completion of initial assessments

(IAs).

Significance: Counties are expected to conduct a comprehensive

assessment to assess, analyze and, when necessary, control for threats to child safety, determine need for protective or ongoing services, determine whether

maltreatment occurred, and assist families in identifying

community resources.

Target: Complete 100% of initial investigations within 60 days.

Target represented by the green line in below graph.

Measurement Method: Data is collected from the statewide automated case

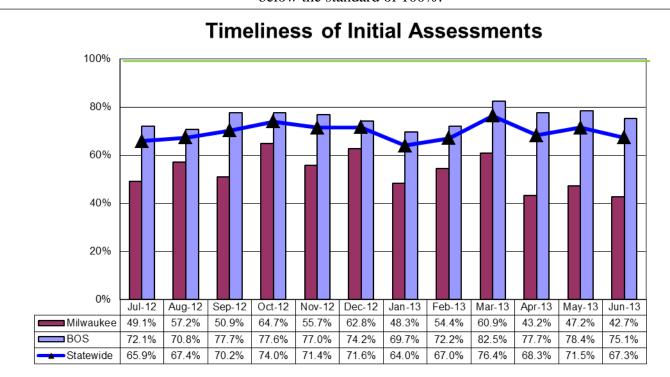

management database, eWiSACWIS. Denominator equals all investigations completed for the reporting period. Numerator equals all investigations completed within 60 days of assignment for the reporting period.

Owner: Fredi Bove, Division Administrator

Progress: Statewide performance (blue line) has improved from

65.9% in July 2012 to 67.3% in June 2013 but is still

below the standard of 100%.

Performance Measure: INITIAL CONTACT TIMELINESS

Objective: Increase the timely completion of initial contacts.

Significance: Counties are expected to assure the timely safety

assessment of an alleged child victim.

Target: Complete 95% of initial contacts in a timely manner

relative to assigned response time. Target represented by

the green line in below graph.

Measurement Method: Data is collected from the statewide automated case

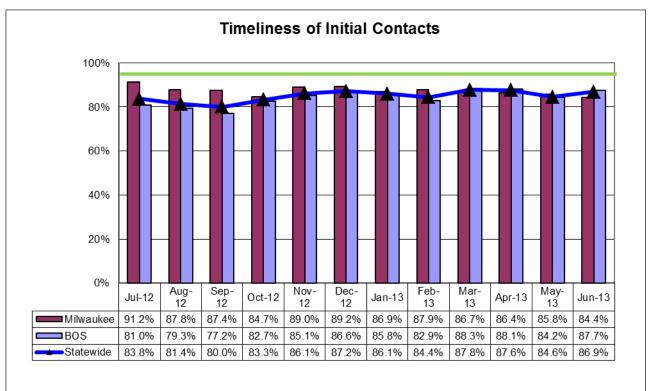

management database, eWiSACWIS. Denominator equals all initial face-to-face contacts for the reporting period relative to response time. Numerator equals all the initial face-to-face contacts completed within assigned response time for the reporting period.

Owner: Fredi Bove, Division Administrator

Progress: Statewide performance (blue line) on this measure

improved from 83.8% in July 2012 to 86.9% in June

2013 but is still below the standard of 95%.

Performance Measure: CASEWORKER CONTACT TIMELINESS

Objective: Increase the timeliness of monthly caseworker contacts.

Significance: County caseworkers are required to have face-to-face

contact with each child on their caseload once a month.

Target: See 90% of children in the out of home care (OHC)

caseload each month. Target represented by the green

line in below graph.

Measurement Method: Data is collected from the statewide automated case

management database, eWiSACWIS. Denominator equals the number of children in out of home care (OHC). Numerator equals the number of children seen each month. This is a cumulative measure based on the

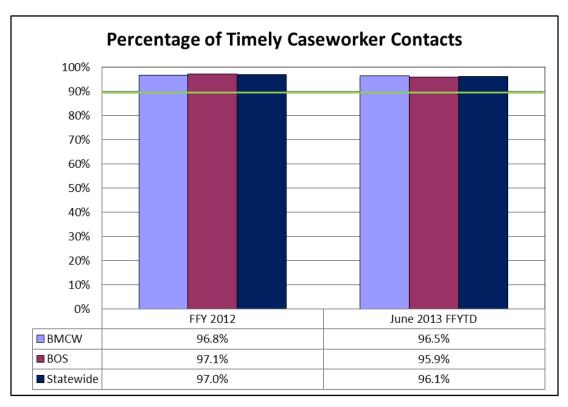

federal fiscal year.

Owner: Fredi Bove, Division Administrator

Progress: Wisconsin performance exceeded the federal standard of

90% for all 12 months of 2012 and for the first six

months of 2013.

Performance Measure: OUT OF HOME CARE MALTREATMENT

Objective: Reduce the number of children who are victims

of maltreatment while in out of home care (OHC).

Significance: Counties are expected to protect the well-being and

safety of children while in their custody.

Target: Wisconsin performance should not fall below the 75th

percentile that less than 0.4% of all children in OHC are

maltreated.

Measurement Method: Data is collected from the statewide automated case

management database, eWiSACWIS. Count is the number of children who were maltreated in OHC in a

given month.

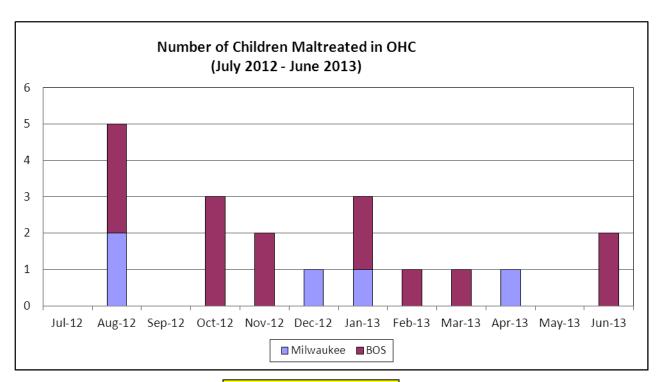

Owner: Fredi Bove, Division Administrator

Progress: Met performance standard for the first six months of

2013. Eight children were maltreated in OHC between January 2013 and June 2013. This is an improvement

over the prior six months when 11 children

were maltreated in OHC.

Performance Measure: RECURRENCE OF MALTREATMENT

Objective: Increase the number of children who are NOT repeat

victims of maltreatment within six months of the initial

maltreatment substantiation.

Significance: Counties are expected to identify permanency solutions

that reduce the likelihood of repeat maltreatment.

Target: Wisconsin performance should not fall below the 75<sup>th</sup>

percentile that 94.6% of children are not repeat victims

of maltreatment within 6 months prior to the

substantiation. Target represented by the green line in

below graph.

Measurement Method: Data is collected from the statewide automated case

management database, eWiSACWIS. Denominator equals all children who were maltreated. Numerator equals all children without a recurring maltreatment

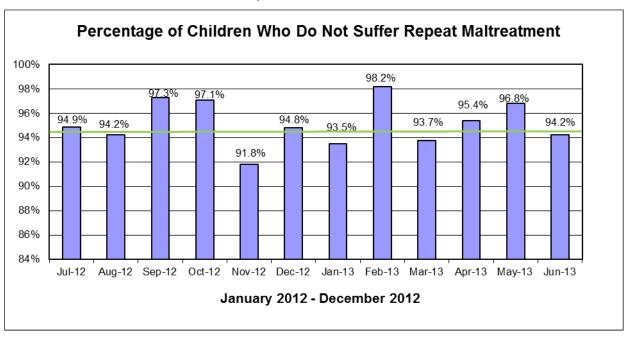

within 6 months of initial substantiation.

Owner: Fredi Bove, Division Administrator

Progress: Between January 2013 – June 2013, 120 children

experienced a recurrence of maltreatment. This is a slight increase from the 119 children who experienced a recurrence of maltreatment in the prior six months. The state met the federal target in seven of 12 months from

July 2012 to June 2013.

Performance Measure: CRITICAL INCIDENTS

Objective: Reduce the number of days to complete a critical incident

review.

Significance: According to Wisconsin State statute, critical incidents must

be reviewed and posted to a public website within 90 days.

Target: Wisconsin performance must ensure the average number of

days to complete a critical incident review is within 90 days.

Target represented by the red line in below graph.

Measurement Method: Data is collected manually by the Bureau of Safety and Well

Being including the time to complete each of the eight steps in the review process. Of the reports completed in that quarter, data provide the average number of days it took to complete

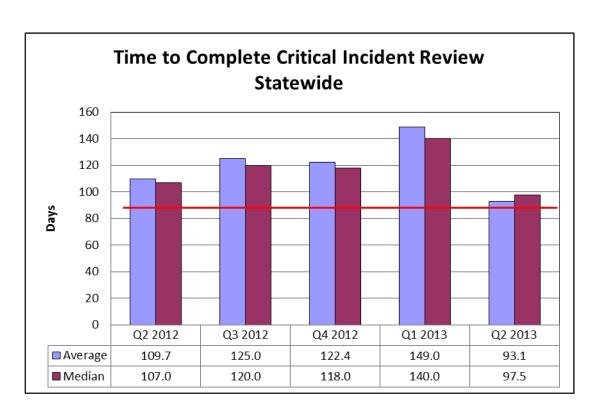

and post.

Owner: Fredi Bove, Division Administrator

Progress: Performance did not meet the target in quarter 1 (Q1) nor

quarter 2 (Q2) of 2013. The average number of days to

complete the review was the lowest in Q2 of 2013 at 93 days.

Target Direction:

Performance Measure: REUNIFICATION WITHIN 12 MONTHS

Objective: Increase the number of children who are reunified with

parents or caretakers within 12 months.

Significance: Counties are expected to work with families to

determine whether reunification is an appropriate permanency solution once a child is removed from the

home.

Target: Wisconsin performance must ensure at least 76.1% of children

are reunified within 12 months. Target represented by the

green line in below graph.

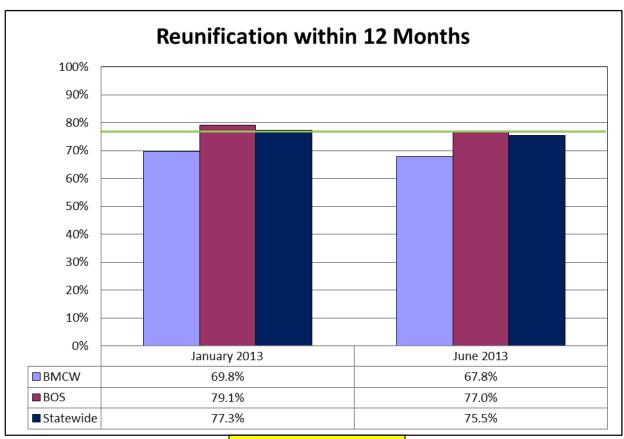

Measurement Method: Data is collected from the statewide automated case

management database, eWiSACWIS. Denominator equals all children reunified within the reporting period. Numerator equals the number of children reunified within 0 to 12 months from the time of the latest removal from home.

Owner: Fredi Bove, Division Administrator

Progress: Statewide performance (blue bar) declined slightly from 77.3%

in January 2013 to 75.5% in June 2013.

Performance Measure: GUARDIANSHIP WITHIN 15 MONTHS

Objective: Increase the number of children who reach guardianship within

15 months.

Significance: Counties are expected to work with families to

determine whether guardianship is an appropriate permanency solution once a child is removed from the

home.

Target: There is no federal standard for this form of permanency.

Measurement Method: Data is collected from the statewide automated case

management database, eWiSACWIS. Denominator equals all children who reached guardianship within the reporting period. Numerator equals the number of children who reached guardianship within 0 to 15 months from the time

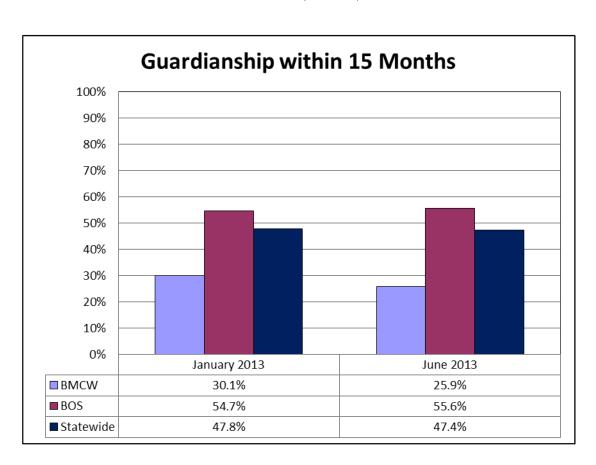

of the latest removal from home.

Owner: Fredi Bove, Division Administrator

Progress: Overall, statewide performance on this measure declined slightly

from 47.8% in January 2013 to 47.4% in June 2013. Balance of

state (BOS) out performed the Bureau of Milwaukee Child Welfare (BMCW) for the two months reviewed.

Performance Measure: ADOPTION WITHIN 24 MONTHS

Objective: Increase the number of children who are adopted within 24

months.

Significance: Counties are expected to identify and pursue adoption as a

permanency solution, when appropriate, as quickly as possible

once a child is removed from the home.

Target: Wisconsin performance must ensure at least 36.6% of children

are adopted within 24 months. Target represented by the green

line in below graph.

Measurement Method: Data is collected from the statewide automated case

management database, eWiSACWIS. Denominator equals all children who are adopted within the

reporting period. Numerator equals the number of children

who are adopted within 0 to 24 months from the time

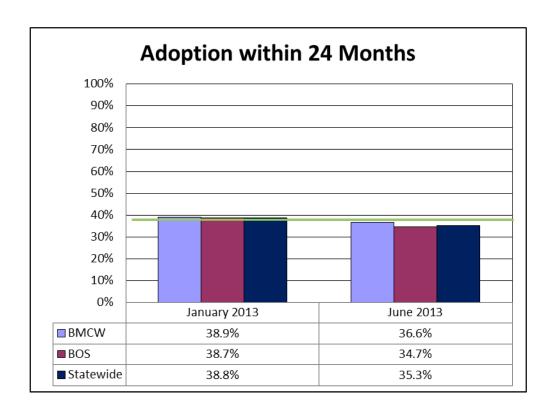

of the latest removal from home.

Owner: Fredi Bove, Division Administrator

Progress: Statewide performance on this measure did not meet the

target in June 2013. Performance declined slightly from 38.8% in

January 2013 to 35.3% in June 2013.

Performance Measure: YOUTH AGING OUT

Objective: Reduce the number of children in out of home care (OHC)

who age out of care.

Significance: Counties are expected to work towards a permanent

placement for children removed from their families.

Target: There is no target for this measure.

Measurement Method: Data is collected from the statewide automated case

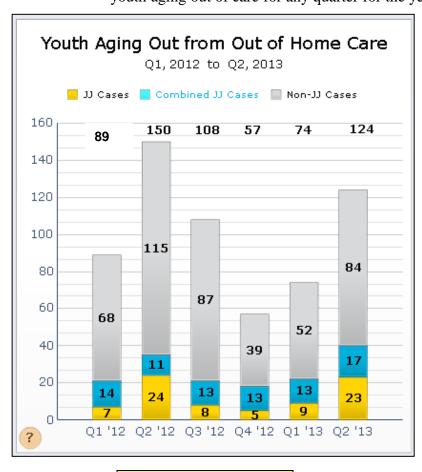

management database, eWiSACWIS. Information is broken out by Juvenile Justice (JJ) cases, combined JJ and child

welfare cases and non-JJ cases (child welfare).

Owner: Fredi Bove, Division Administrator

Progress: The number of youth who aged out of care

decreased from 239 in Q1 and Q2 2012 to 198 in Q1 and Q2 2013. Because a high number of youth age out after high school graduation, Q2 typically has the highest number of youth aging out of care for any quarter for the year.

Target Direction:

Performance Measure: PLACEMENT STABILITY

Objective: Reduce the number of placements children experience while in

OHC.

Significance: Counties are expected to minimize the likelihood that

the children will move from placement to placement while in

OHC.

Target: Wisconsin performance should fall below the 75<sup>th</sup> percentile

that 86.0% of children in care less than 12 months have two or fewer placements. Target represented by the green line in

below graph.

Measurement Method: Data is collected from the statewide automated case

management database, eWiSACWIS. Denominator equals all children in OHC for the relevant time period. Numerator equals all children in OHC for the relevant time period with one or two

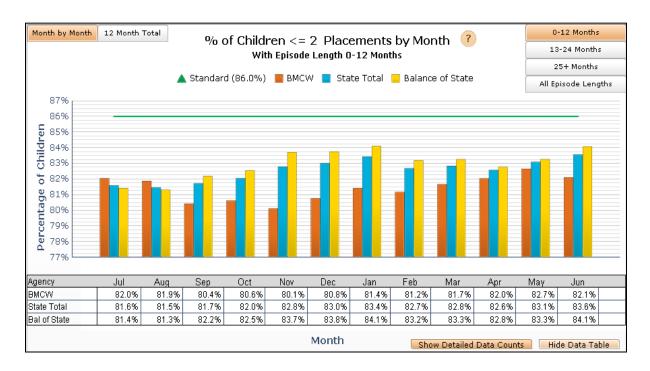

placement settings.

Owner: Fredi Bove, Division Administrator

Progress: Statewide performance (blue bar) improved slightly from

83.4% in January 2013 to 83.6% in June 2013, but remains

below the benchmark of 86.0%.

Performance Measure: RE-ENTRY WITHIN 12 MONTHS

Target:

Objective: Reduce the number of children who re-enter out of home care

(OHC), within 12 months of a previous episode.

Significance: Counties are expected to identify, pursue and support

permanency solutions for children in order to minimize the likelihood that the children will subsequently return to OHC. Wisconsin performance must ensure that of all the children

who are discharged to reunification, 9.9% or fewer re-enter within 12 months. Target represented by the red line in

below graph.

Measurement Method: Data is collected from the statewide automated case

management database, eWiSACWIS. Denominator equals the number of children discharged to reunification during the reporting period. Numerator equals all children entering care

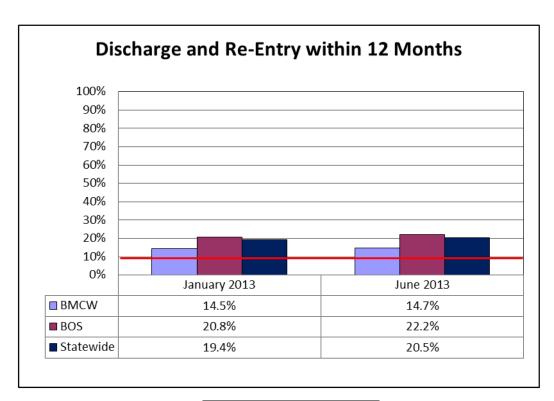

within 0 to 12 months of a previous discharge to

reunification.

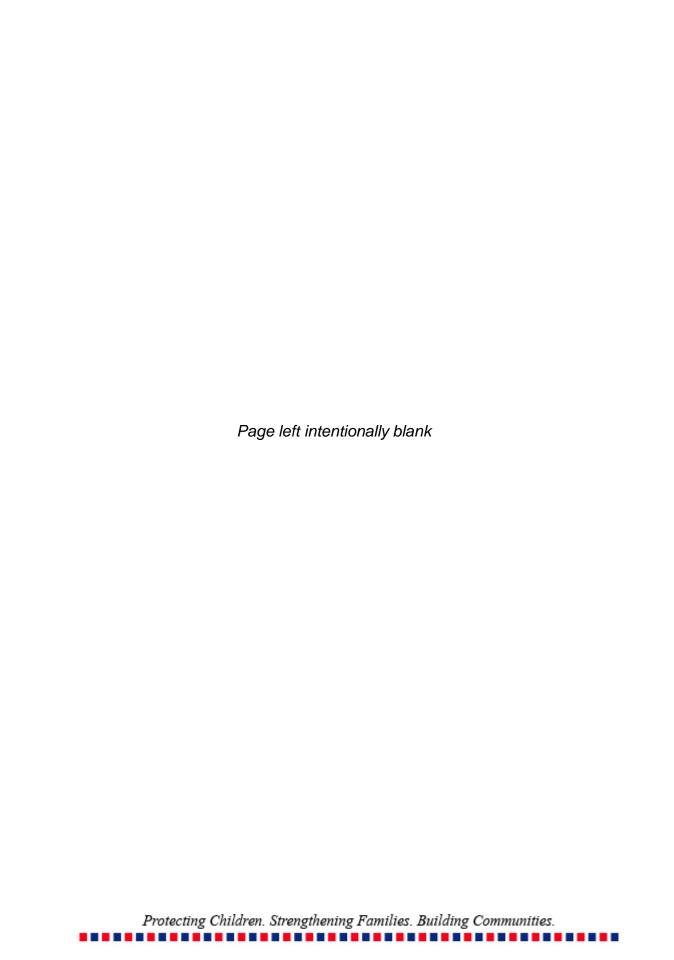

Owner: Fredi Bove, Division Administrator

Progress: Statewide performance (blue bar) worsened slightly from

19.4% in January 2013 to 20.5% in June 2013.

#### Wisconsin Department of Children and Families Performance Measures W-2 Scale of Operations

| Wisconsin Works (W-2) Scale of Operations |                                   |                      |        |                    |                    |  |  |  |  |  |
|---|-----------------------------------|----------------------|--------|--------------------|--------------------|--|--|--|--|--|
|   | Milwaukee Balance of County State |                      |        |                    |                    |  |  |  |  |  |
| Month                                     | Paid<br>Placements                | Unpaid<br>Placements | Total  | Paid<br>Placements | Paid<br>Placements |  |  |  |  |  |
| Jun-13                                    | 15,693                            | 3,610                | 19,303 | 9,334              | 6,359              |  |  |  |  |  |
| May-13                                    | 15,421                            | 3,567                | 18,988 | 9,316              | 6,105              |  |  |  |  |  |
| Apr-13                                    | 15,083                            | 3,231                | 18,314 | 9,295              | 5,788              |  |  |  |  |  |
| Jun-12                                    | 14,094                            | 3,495                | 17,589 | 9,520              | 4,574              |  |  |  |  |  |

#### W-2 service delivery structure in Balance of State

- W-2 contract agencies deliver a full range of W-2 services organized into four areas across the 71 Balance of State (BOS) counties:
  - Workforce Resources, Inc. (Northwest Area)
  - Workforce Connections (Western Area)
  - Forward Service Corp. (Northeast Area, North Central Area, Southwest Area)
  - ResCare, Inc. (Southeast Area)

#### W-2 service delivery structure in Milwaukee County

- W-2 contract agencies deliver a full range of W-2 services to four areas within Milwaukee county:
  - Ross Innovative Employment Solutions (Northern Milwaukee Area)
  - Maximus (West Central Milwaukee Area)
  - America Works of Wisconsin, Inc. (East Central Milwaukee Area)
  - UMOS (Southern Milwaukee Area)

Performance Measure: CAPITATED CASELOAD

Objective: Ensure agencies serve the number of clients bid under

their contract.

Significance: This measure shows the scope of client service under the W-2

contract (% Case Count Total) and the costs paid out under

the W-2 contract (% Contract Earned).

Target: There is no target for this measure.

Measurement Method: Data is collected from the statewide automated case

management database, CARES. For blue bars, numerator

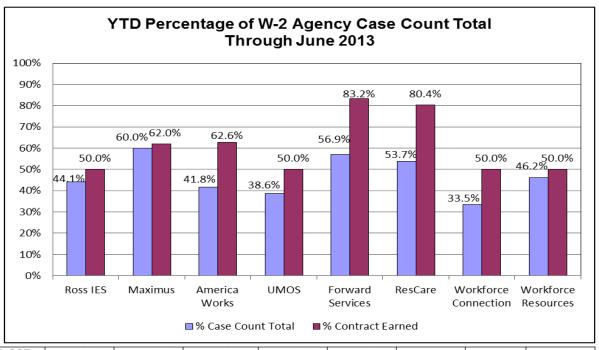

equals the number of cases each agency served through the W-2 program over the course of the year. Denominator equals the contracted quantity under the contract bid. For the red bars, numerator equals the amount paid under the contract. Denominator equals the budget.

Owner: Kris Randal, Division Administrator

Progress: 50% of the contract year has elapsed. Three of eight contract

agencies' case count total (blue bars) are at or above 50%. All eight contract agencies' budgets are at or above their

YTD capitated budget (red bars).

| YTD CCT    | 16,749      | 16,062      | 16,481      | 15,738      | 23,029      | 11,618      | 804       | 2,325       |
|------------|-------------|-------------|-------------|-------------|-------------|-------------|-----------|-------------|
| Contract   |             |             |             |             |             |             |           |             |
| Quantity   | 38,000      | 26,775      | 39,475      | 40,767      | 40,450      | 21,634      | 2,400     | 5,032       |
|            |             |             |             |             |             |             |           |             |
| YTD Earned | \$2,650,690 | \$3,180,276 | \$3,263,238 | \$2,649,855 | \$4,559,742 | \$2,300,364 | \$257,400 | \$503,200   |
| Budget     | ¢5 201 290  | ¢5 120 450  | ¢5 210 700  | ¢5 200 710  | ¢E 490 E71  | ¢2 062 170  | ¢514 900  | \$1 006 400 |
| Budget     | \$5,301,380 | \$5,130,450 | \$5,210,700 | \$5,299,710 | \$5,480,571 | \$2,862,178 | \$514,800 | \$1,006,400 |

Performance Measure: MARKET PENETRATION

Objective: Increase access to the W-2 program.

Significance: This measure shows a regional comparison of access to

the W-2 program using Food Share assistance groups as

the target.

Target: There is no target for this measure but the graph below

compares the market penetration in 2013 to a baseline

established using the January 2010 – June 2011

caseload.

Measurement Method: Data is collected from the statewide automated case

management database, CARES. Numerator equals the total W-2 caseload. Denominator equals the number of Food Share assistance groups with zero income and

minor children.

Owner: Kris Randal, Division Administrator

Progress: From Q1 2013 to Q2 2013, all

agencies increased their market penetration:

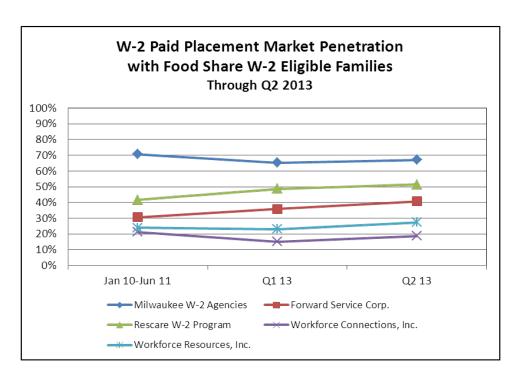

• Milwaukee \1.8 percentage points;

• Forward Service \( \frac{4}{4}.9 \) percentage points;

• ResCare \( \frac{2}{2}.7 \) percentage points;

• Workforce Connections \( \frac{3}{3}.7 \) percentage points; and

• Workforce Resources \( \frac{4}{.5} \) percentage points.

Performance Measure: EXPENDITURE PER CASE

Objective: To reduce the expenditure per case.

Significance: Agencies are expected to provide high quality services as

efficiently as possible.

Target: There is no target for this measure, but the graph below

compares the current contract expenditures (solid lines) to prior expenditures per case in last contract (dotted

lines).

Measurement Method: The prior expenditure per case uses an 18 month average

(January 2010 – June 2011) to establish a baseline (dotted line). This is compared to the current expenditure per case (solid line). For both time periods, the total

expenditures are divided by the unduplicated cases served

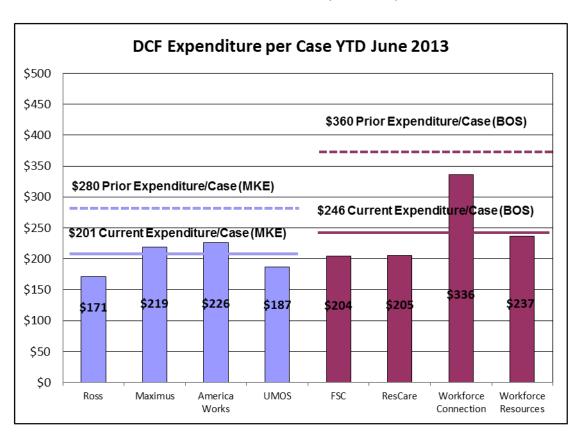

for the time period.

Owner: Kris Randal, Division Administrator

Progress: Under the new contract structure, current expenditure per

case dropped 28% in Milwaukee (\$201/case) and 32% in

Balance of State (\$246/case).

Performance Measure: ALL FAMILY WORK PARTICIPATION RATES

Objective: Increase the number of adults in paid W-2 placements who are

participating in approved TANF work activities.

Significance: Wisconsin is required by Federal law to meet an All-Family

Work Participation Rate or face a penalty.

Target: 50% of adults in families receiving TANF cash assistance

participate in approved work activities. Target represented by the

green line in below graph.

Measurement Method: Data is collected from the statewide automated case

management database, CARES. Denominator equals the number of adults in families receiving TANF cash assistance. Numerator equals the number of adults in families receiving TANF cash assistance who participate in work activities.

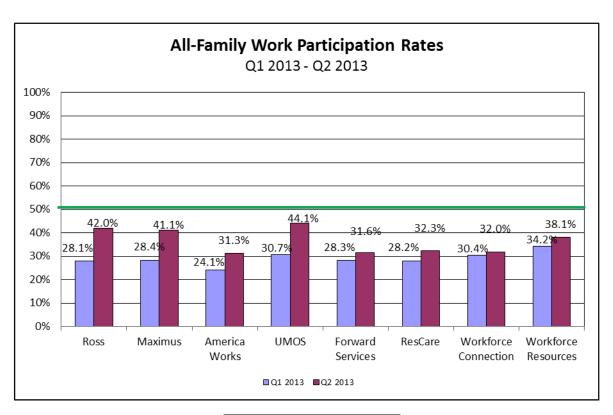

These results are compared quarterly.

Owner: Kris Randal, Division Administrator

Progress: All agencies improved their Federal TANF All-Family Work

Participation Rate from Q1 2013 to Q2 2012 but none are

achieving the benchmark.

Performance Measure: JOB ATTAINMENT RATE

Objective: Increase the number of individuals placed in a job that

lasts 31+ days and meets hour or wage criteria.

Significance: The primary goal of the W-2 program is to help W-2

participants to find employment. This rate estimates the likelihood that a parent served by an agency will be

placed in job that meets the above criteria.

Target: There is no target for this measure.

Measurement Method: Data is collected from the statewide automated case

management system, CARES. Denominator equals the number of unduplicated case count total (CCT) served by the agency. Numerator equals the number of year to date (YTD) claims for job attainment established by the agency. The table includes each agency's bid for the number (Annual Contract Quantity) and the price

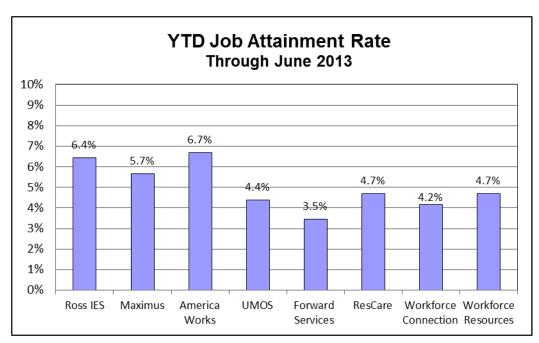

(Unit Contract Price) for each attainment.

Owner: Kris Randal, Division Administrator

Progress: While the number of claims has steadily increased since

the beginning of the year, the percent of job attainments

remains below 7%.

| 239     | 213     | 246     | 161     | 211     | 135     | 11      | 31      | YTD Claims               |
|---------|---------|---------|---------|---------|---------|---------|---------|--------------------------|
| 3719    | 3754    | 3684    | 3667    | 6114    | 2870    | 264     | 662     | Unduplicated CCT         |
| 950     | 1101    | 1044    | 864     | 1311    | 615     | 115     | 210     | Annual Contract Quantity |
| \$1,064 | \$1,011 | \$1,500 | \$1,245 | \$1,250 | \$1,225 | \$1,000 | \$1,627 | Unit Contract Price      |

Performance Measure: LONG TERM JOB ATTAINMENT RATE

Objective: Increase the number of long term W-2 participants placed in

a job that lasts 31+ days and meets hours or wage criteria.

Significance: It is especially important and challenging for long term

W-2 participants to find employment. Long term participants can be harder to employ. A long term participant is defined as an individual who has been on the caseload for at least 24 months on January 1, 2013 with at least 6 months in 2012. This rate estimates the likelihood that a long term participant served by an agency will be placed in a job that meets the

criteria above.

Target: There is no target for this measure.

Measurement Method: Data is collected from the statewide automated case

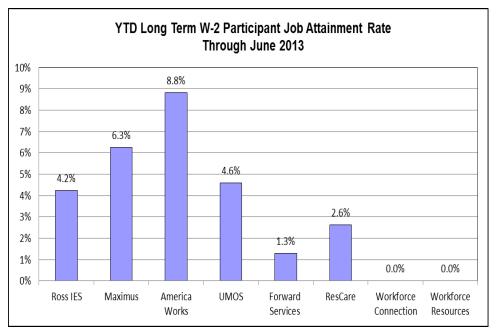

management system, CARES. Denominator equals the number of W-2 long term participant caseload. Numerator equals the number of year to date (YTD) claims for long term job attainments. The table includes each agency's bid for the number (Annual Contract Quantity) and the price (Unit

Contract Price) for each attainment. Kris Randal, Division Administrator

Owner: Kris Randal, Division Administrator
Progress: While the number of claims has steadily creased since

the beginning of the year, the percent of job attainments

remains below 9%.

| 31    | 41      | 73    | 27    | 5     | 6     | 0     | 0     | YTD Claims               |
|-------|---------|-------|-------|-------|-------|-------|-------|--------------------------|
| 731   | 655     | 828   | 587   | 391   | 229   | 6     | 35    | Unduplicated CCT         |
| 227   | 229     | 217   | 226   | 11    | 40    | 3     | 4     | Annual Contract Quantity |
| \$949 | \$1,022 | \$500 | \$995 | \$500 | \$570 | \$900 | \$499 | Unit Contract Price      |

Performance Measure: HIGH WAGE JOB RATE

Objective: Increase the number of W-2 participants placed in a job

with a high wage.

Significance: W-2 participants will be more successful if they are able

to find employment that pays a high wage. High wage is defined as the top 15% wage rate in geographical areas based on 2011 data for starting wages. The high wage rate estimates the likelihood that a parent served by an agency will be placed in a high wage, non-

temporary job.

Target: There is no target for this measure.

Measurement Method: Data is collected from the statewide automated case

management system, CARES. Denominator equals the number of W-2 unduplicated case count total (CCT) served by the agency. Numerator equals the number of

year to date (YTD) claims for high wage job

attainments. The table includes each agency's bid for the number (Annual Contract Quantity) and the price

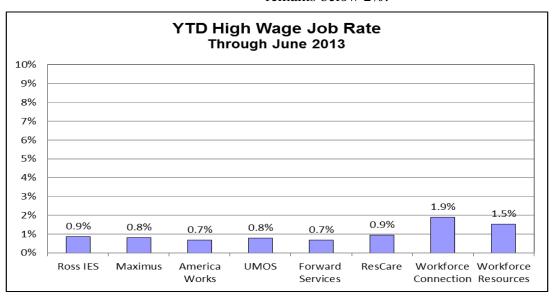

(Unit Contract Price) for each attainment.

Owner: Kris Randal, Division Administrator

Progress: While the number of claims has steadily creased since

the beginning of the year, the percent of job attainments

remains below 2%.

| 32    | 30    | 25    | 29    | 41    | 27    | 5     | 10    | YTD Claims                 |
|-------|-------|-------|-------|-------|-------|-------|-------|----------------------------|
| 3719  | 3754  | 3684  | 3667  | 6114  | 2870  | 264   | 662   | Unduplicated CCT           |
| 195   | 208   | 189   | 196   | 204   | 225   | 22    | 48    | Annual Contracted Quantity |
| \$723 | \$750 | \$375 | \$740 | \$375 | \$285 | \$685 | \$375 | Unit Contracted Price      |

Performance Measure: JOB RETENTION RATE

Objective: Increase the number of W-2 participants who retain a job that

meets hour or wage criteria and lasts 31+ days.

Significance: W-2 participants who find employment need to be able to retain

employment over time. Economic security depends on maintaining a sufficient level of income over time. This rate estimates the likelihood that a parent served by an agency will remain in a non-temporary job meeting hour or wage criteria.

Target: There is no target for this measure.

Measurement Method: Data is collected from the statewide automated case

management system, CARES. Denominator equals the number of W-2 unduplicated case count total (CCT) served by the agency. Numerator equals the number of year to date (YTD) claims for high wage job attainments. The table includes each agency's bid for the number (Annual Contract Quantity) and the

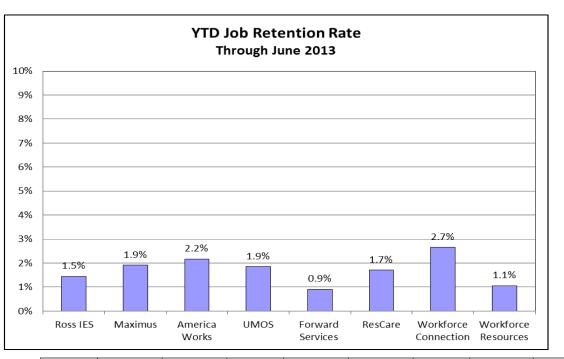

price (Unit Contract Price) for each attainment.

Owner: Kris Randal, Division Administrator

Progress: While the number of claims has steadily creased since the

beginning of the year, the percent of job attainments remains

below 3%.

| 54      | 72      | 80      | 68      | 56      | 49      | 7       | 7       | YTD Claims                 |
|---------|---------|---------|---------|---------|---------|---------|---------|----------------------------|
| 3719    | 3754    | 3684    | 3667    | 6114    | 2870    | 264     | 662     | Unduplicated CCT           |
| 975     | 800     | 944     | 944     | 993     | 559     | 100     | 190     | Annual Contracted Quantity |
| \$1,936 | \$2,270 | \$1,875 | \$2,000 | \$1,861 | \$1,900 | \$1,900 | \$1,760 | Unit Contracted Price      |

Performance Measure: SSI/SSDI RECEIPT

Objective: Increase the number of W-2 participants who receive

SSI/SSDI among those who are appropriate and have

applied.

Significance: W-2 agencies are expected to assist participants to

determine whether they might be eligible for SSI/SSDI

and to complete the application process.

Target: There is no target for this measure.

Measurement Method: Data is collected from the statewide automated case

management database, CARES. Denominator equals the

unduplicated case count total (CCT) served by the

agency. Numerator equals the year to date (YTD) claims for the number of W-2 participants who receive SSI or SSDI benefits. The table includes each agency's bid for the number (Annual Contract Quantity) and the price

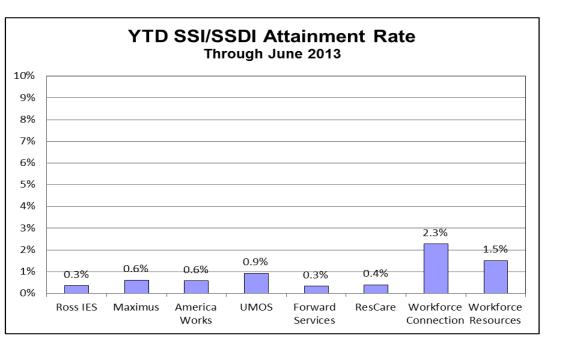

(Unit Contract Price) for each attainment.

Owner: Kris Randal, Division Administrator

Progress: While the number of claims has steadily creased since

the beginning of the year, the percent of job attainments

remains below 3%.

| 13      | 23      | 21    | 34      | 20      | 11    | 6       | 10      | YTD Claims                 |
|---------|---------|-------|---------|---------|-------|---------|---------|----------------------------|
| 3719    | 3754    | 3684  | 3667    | 6114    | 2870  | 264     | 662     | Unduplicated CCT           |
| 168     | 191     | 175   | 162     | 195     | 125   | 16      | 31      | Annual Contracted Quantity |
| \$1,205 | \$1,125 | \$625 | \$1,250 | \$1,250 | \$821 | \$1,200 | \$1,250 | Unit Contracted Price      |

Performance Measure: COURT ORDER ESTABLISHMENT

Objective: Increase the number of children who have a court order

for child support.

Significance: Child support cannot be collected unless there is a court

order for payment.

Target: 80% is the Federal standard. Target represented by the

green line in below graph.

Measurement Method: Data collected from the statewide database, KIDS.

Denominator equals the total number of cases

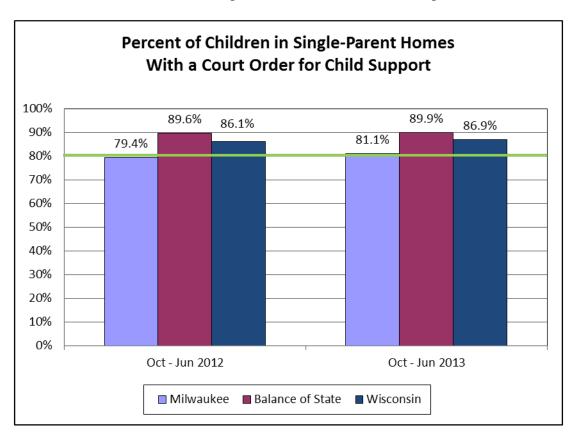

as of the last day of the reporting period. Numerator equals to the number of cases with court orders. This is

a point in time measure.

Owner: Kris Randal, Division Administrator

Progress: Performance below reflects Federal Fiscal Year (FFY)

2013 to date (October 1, 2012 – June 30, 2013). In FFY 2013, Wisconsin established court orders for 86.9% of all child support cases, a 0.8 percentage point improvement from the same time period in FFY 2012.

Performance Measure: PATERNITY ESTABLISHMENT

Objective: Increase the number of children for whom paternity has

been established.

Significance: Paternity establishment provides the father with legal

rights to the child, and provides the child with rights to

child support, inheritance, etc.

Target: 80% is the Federal standard. Target represented by the

green line in below graph.

Measurement Method: Data is collected from the statewide database, KIDS.

Denominator equals the number of the children born out of wedlock and present in the caseload at any time during the year. Numerator equals the number of those children

for whom paternity was established.

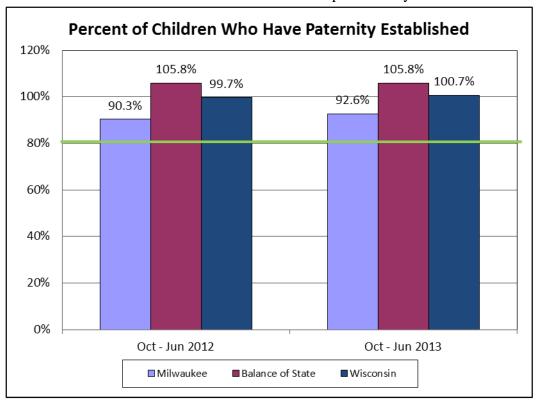

Owner: Kris Randal, Division Administrator

Progress: Performance below reflects Federal Fiscal Year (FFY)

2013 to date (October 1, 2012 – June 30, 2013).

Performance across Wisconsin counties currently exceeds the standard. To date, Wisconsin established paternity for 100.7% of children, a 1.0 percentage point improvement

from the same time period last year.

Performance Measure: TIMELY COLLECTION OF CHILD SUPPORT

Objective: Increase the collection of child support in the month that

it is due.

Significance: Child support should be a reliable source of income for

families.

Target: 80% is the Federal standard. Target represented by the

green line in below graph.

Measurement Method: Data is collected from the statewide automated case

management database, KIDS. Denominator equals the

total amount of child support due for the period.

Numerator equals the total amount that is actually paid

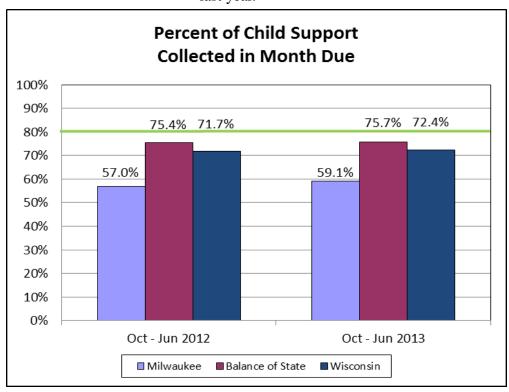

during the month that it is due.

Owner: Kris Randal, Division Administrator

Progress: Performance below reflects Federal Fiscal Year (FFY)

2013 to date (October 1, 2012 – June 30, 2013). Performance across Wisconsin counties has not met the 80% standard in FFY 2013. In FFY 2013, Wisconsin collected 72.4% of child support payments in the month due, which is a 0.7% increase from the same time period

last year.

Performance Measure: ARREARAGE COLLECTIONS

Objective: Increase the collection of at least one payment on child

support cases with arrears.

Significance: Any child support that is not paid when it is due

becomes an unpaid amount (arrears). The child support mission is to enforce child support orders and collect

unpaid amounts.

Target: 80% is the Federal standard. Target represented by the

green line in below graph.

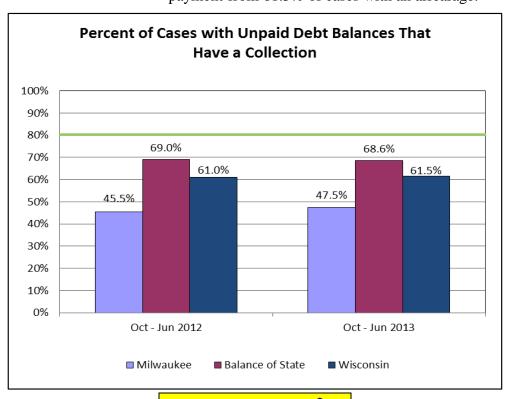

Measurement Method: Data is collected from the statewide database, KIDS.

Denominator equals the number of cases that had an arrearage during the period. Numerator equals the number of cases where a payment was made on arrears.

Owner: Kris Randal, Division Administrator

Progress: Performance below reflects Federal Fiscal Year (FFY)

2013 to date (October 1, 2012 – June 30, 2013). Performance across Wisconsin counties has not met the 80% standard in FFY 2013, but performance has improved slightly compared to June 2012. Through June of FFY 2013, Wisconsin received at least one payment from 61.5% of cases with an arrearage.

Performance Measure: COST-EFFECTIVENESS

Objective: To collect as much money as possible for every dollar

spent on the program.

Significance: The Bureau of Child Support is expected to administer

the child support program as cost effectively as possible.

Target: Collect \$5.00 for every \$1.00 spent on child support

enforcement activities. Target represented by the

green line in below graph.

Measurement Method: Numerator equals the amount of money collected in

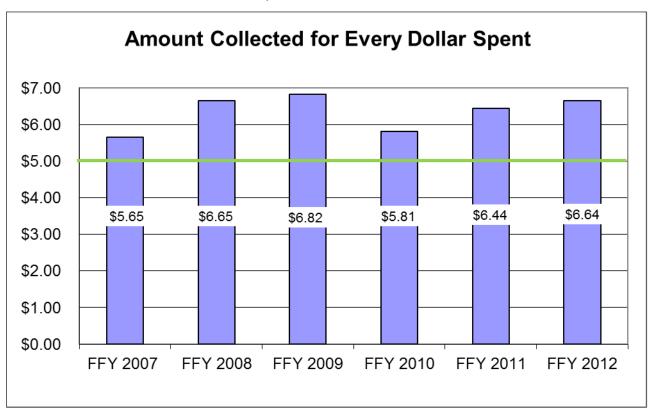

child support during the course of the federal fiscal year. Denominator equals the amount of money spent on child support enforcement activities over the course of the federal fiscal year. Data comes from the Federal Office of

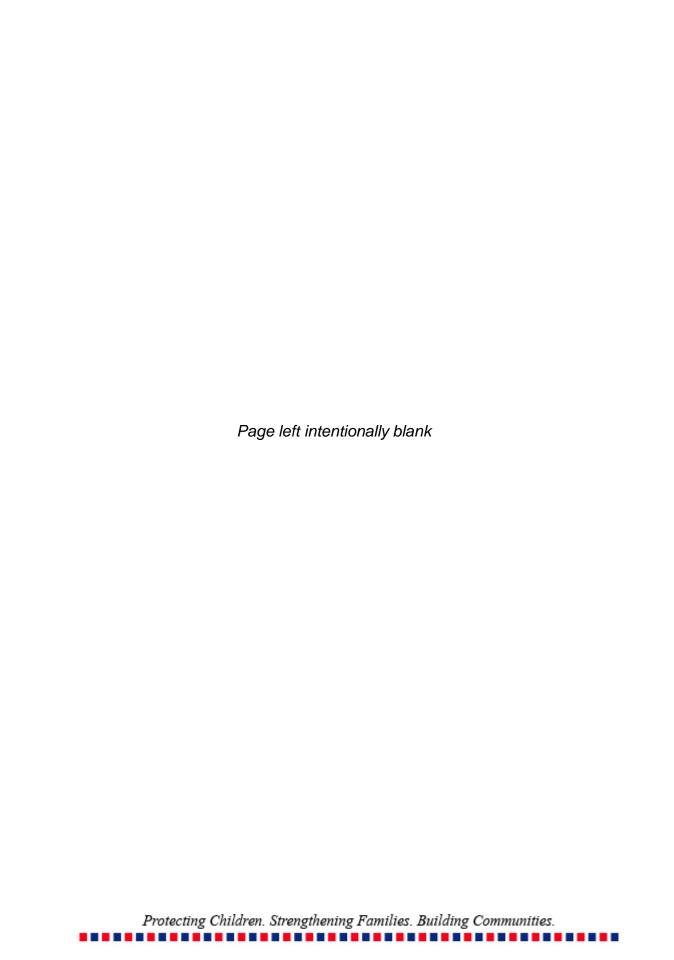

Child Support Enforcement.

Owner: Kris Randal, Division Administrator

Progress: Performance across Wisconsin counties exceeded

the \$5.00 standard in Federal Fiscal Years 2007 - 2012.

## Wisconsin Department of Children and Families Performance Measures Child Care Scale of Operations

| Child Care Services in Wisconsin Scale of Operations |                              |  |                   |                  |        |  |  |  |  |  |

Child care licensing and certification regulate providers caring for more than three children under the age of three at a given time. Providers choose to participate in YoungStar, the quality rating and improvement system, and are required to participate if caring for children in the Wisconsin Shares program. Statewide, the number of regulated providers continues to decline.

#### Breakdown of Total Regulated Providers

As of June 2013

- Licensed group (2,419)
- Licensed family (2,041)
- •Licensed camp (76)
- •Regularly certified (1,144)
- Provisionally certified (365)
- •In-home provisional [provisional provider doing care in the child's home] (34)
- •In-home regular [regular provider doing care in the child's home] (13)
- •Certified school age program (11)

#### **Driver Counties**

Driver counties are identified as Brown, Dane, Kenosha, Milwaukee Racine, Rock, Waukesha and Winnebago.

#### Wisconsin Department of Children and Families Performance Measures Children are safe in licensed and certified child care settings.

Performance Measure: CERTIFIED PROVIDER VISITS

Objective: To ensure all certified child care providers receive the minimum

number of visits required on or before the date due.

Significance: Wisconsin state statutes require all certified providers to be

visited by state staff once every two years in order to renew their regulation. Certified providers that are not regulated for a full two

years receive an initial certification visit.

Target: 100% of visits due are completed according to regulation. Target

represented by the green line in below graph

Measurement Method: Data is collected from the statewide Wisconsin Child Care

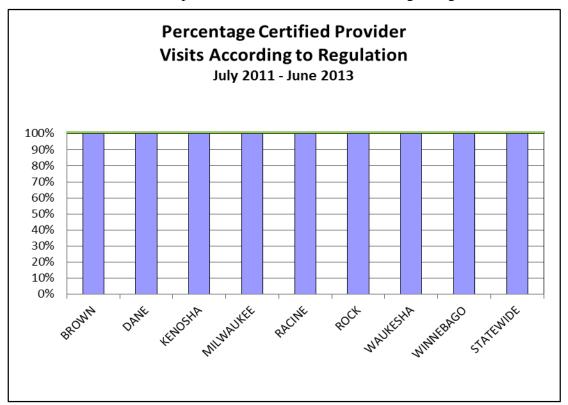

Regulation System (WISCCRS). Denominator equals the number of certified provider locations that required a visit in the defined time period. Numerator equals the number of certified child care

provider locations visited according to regulation.

Owner: Judy Norman-Nunnery, Division Administrator

Progress: Between July 1, 2011 and June 30, 2013, 100% of the certified

provider visits were made according to regulation.

#### Wisconsin Department of Children and Families Performance Measures Children are safe in licensed and certified child care settings.

Performance Measure: LICENSED PROVIDER VISITS

Objective: To ensure all licensed child care providers receive the minimum

number of visits required on or before the due date.

Significance: Wisconsin state statutes require all licensed providers to be visited

at least one time in the course of one year, depending on their

monitoring plan.

Target: 100% of visits due are completed according to regulation. Target

represented by the green line in below graph.

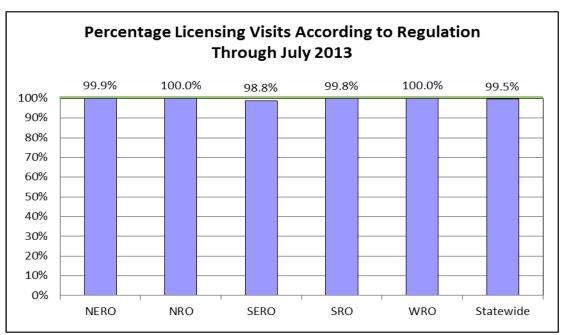

Measurement Method: Data is collected from the statewide Wisconsin Child Care

Regulation System (WISCCRS). Denominator equals the number of licensed provider locations that required a visit in the defined time period. Numerator equals the number of licensed provider

locations visited according to regulation.

Owner: Judy Norman-Nunnery, Division Administrator Progress: Between July 25, 2012 and July 25, 2013, 99.5% of

licensed providers were visited according to regulation.

|                      | NERO  | NRO    | SERO  | SRO   | WRO    | Statewide |
|----------------------|-------|--------|-------|-------|--------|-----------|
| Centers w/           |       |        |       |       |        |           |
| Completed Visits     | 896   | 419    | 1,517 | 1,138 | 328    | 4,298     |
| Centers Due Visit(s) | 897   | 419    | 1,535 | 1,140 | 328    | 4,319     |
| % Timely             | 99.9% | 100.0% | 98.8% | 99.8% | 100.0% | 99.5%     |

#### Wisconsin Department of Children and Families Performance Measures Children attend high quality child care and early education programs.

Performance Measure: WISCONSIN SHARES CHILDREN BY STAR LEVEL

Objective: To ensure children in the Wisconsin Shares child care subsidy

program have access to high quality early education programs.

Significance: Research has shown that low-income children who attend high

quality care have improved short and long term outcomes. For this measure, high quality providers are defined as those that

have 3, 4 or 5 Stars.

Target: 58% of children in the Wisconsin Shares program will attend

high quality centers by the end of 2013. Target represented by

the green line in below graph.

Measurement Method: Data is collected through the YoungStar data system.

Denominator equals the total number of children in

Wisconsin Shares. Numerator equals the number of Wisconsin

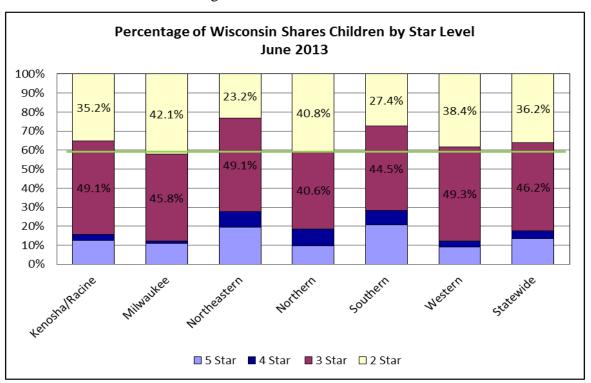

Shares children at each star level.

Owner: Judy Norman-Nunnery, Division Administrator

Progress: As of June 2013, 63.8% of children statewide attend high

quality child care centers. Five of the six YoungStar

regions met the standard.

#### Wisconsin Department of Children and Families Performance Measures Child care funds are well spent and fraud is minimized.

Performance Measure: CLIENT OVERPAYMENTS

Objective: To ensure client overpayments are found.

Significance: Wisconsin state statute requires that local agencies recover

overpayments found in the program. Overpayments occur due to fraud, client errors or errors made by the administrative

agency.

Target: Local agencies will establish overpayments at a rate of 1% - 3%

of total dollars administered in the county for subsidy

administration. Target represented by the area between red and

green lines in below graph.

Measurement Method: Data gathered from the Child Care Statewide Administration on

the Web (CSAW) system. Denominator equals the YTD dollars administered by Wisconsin Shares. Numerator equals the total

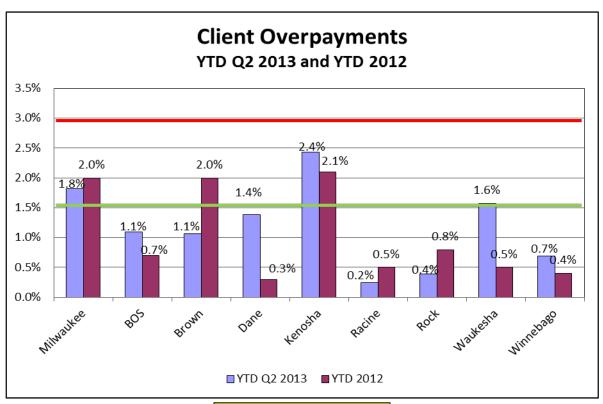

dollars YTD established as client overpayments.

Owner: Judy Norman-Nunnery, Division Administrator

Progress: Year to date (YTD) through Q2 2013, 621 overpayment claims

were established for \$2.0 million dollars statewide. This is 1.5% of total subsidy dollars administered statewide YTD through

Q2 of 2013, which meets the established target.

Target Direction:

## Wisconsin Department of Children and Families Performance Measures Child care funds are well spent and fraud is minimized.

Performance Measure: PROVIDER INVESTIGATION TIMELINESS

Objective: To ensure investigations into provider issues are completed in a

timely manner.

Significance: It is the responsibility of the Department to follow up on referrals

made regarding business practices by child care providers that may

contradict program policies.

Target: 75% of investigations are completed within 120 days. Target

represented by the green line in below graph.

Measurement Method: Data gathered through provider investigation compares state statute

and program policy to provider business practices, including billing for attendance on behalf of children in the Wisconsin Shares program. Data is collected administratively in the Program Integrity Unit.

Denominator equals the total number of provider investigations completed in each quarter. Numerator equals the number of provider

investigations completed within 120 days in each quarter.

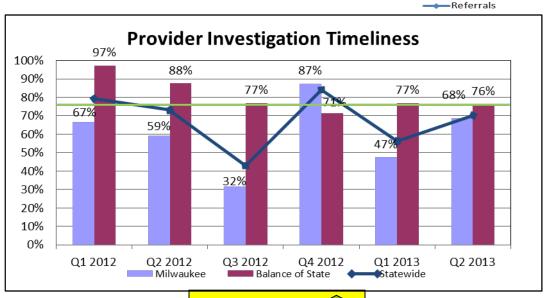

Owner: Judy Norman-Nunnery, Division Administrator

Progress: DECE investigated 179 providers Year to Date (YTD) in 2013. Over

the course of the year, 63.7% of investigations were completed on time. This does not meet the target of 75%. Provider investigations YTD in 2013 resulted in 94 overpayments due to the Department, 49 termination of ability to care for children in Wisconsin Shares and 55 no enforcement action taken. Referrals to conduct investigations

exceeded 450 for each quarter in 2013.

Target Direction:

## Wisconsin Department of Children and Families Performance Measures Child care funds are well spent and fraud is minimized.

Performance Measure: CLIENT INVESTIGATION TIMELINESS

Objective: To ensure investigations into client issues are completed in a

timely manner.

Significance: MECA must follow up on referrals made regarding child care

program recipients that may contradict program policies.

Target: 90% of investigations are completed within 30 days. Target

represented by the green line in below graph.

Measurement Method: Data gathered through provider investigation compares

state statute and program policy to provider business practices, including billing for attendance on behalf of children in the Wisconsin Shares program. Data is collected administratively through the Milwaukee Early Care Administration (MECA). Denominator equals the number of client investigations completed in each quarter. Numerator equals the number of client investigations completed within 30 days in each quarter.

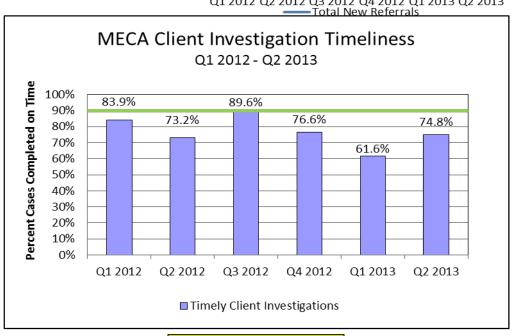

Owner: Judy Norman-Nunnery, Division Administrator

Progress: MECA investigated 526 clients in Q1 and Q2 2013. Over the

course of those six months, 68.1% of investigations were completed timely. Referrals to conduct investigations ranged

from 278 to 334.

## Wisconsin Department of Children and Families Performance Measures Customers receive quality service.

Performance Measure: CALL RESPONSE TIMELINESS

Objective: To ensure that families receiving Wisconsin Shares subsidies

receive quality customer service.

Significance: As the administrator of the Wisconsin Shares program

in Milwaukee County and the contract administrator for the program in the balance of state, MECA, MilES and the child care consortiums must offer timely and appropriate customer service to customers with questions or individuals seeking

benefits.

Target: An average time-to-answer of five minutes or fewer. Target

represented by the red line in below graph.

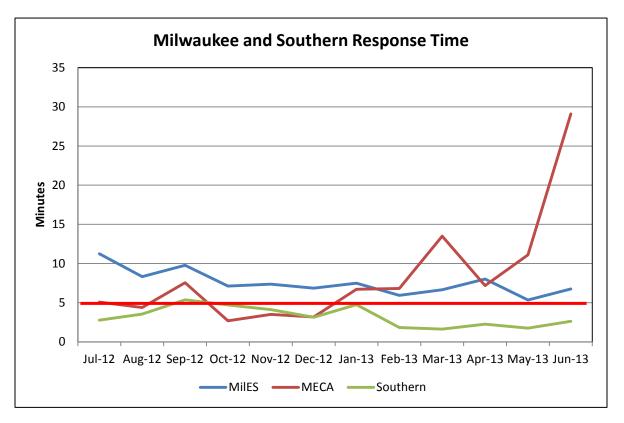

Measurement Method: Data is collected in a centralized data system.

Owner: Judy Norman-Nunnery, Division Administrator

Progress: Statewide average time-to-answer in June 2013 was 6.3

minutes. The following consortia met the five minute target in June 2013: Moraine Lakes, Great Rivers, Capital, Bay Lake,

East Central, IM Central and Southern.

## Wisconsin Department of Children and Families Performance Measures Customers receive quality service.
